CAMPBELL AT THE ROSE CARNIVAL

The Orchard City Will Enter Fine
Float and Maintain Attractive
Booth

A fair number of the business men at-
tended the Improvement Club meeting
last Monday night. The usual reading
of the minutes was dispensed with, so as
to give more time to the Rose Carnival
representatives who were present from
San Jose to address the club in behalf of
the celebration.

The presence of four prominent men
in our little town indicate somewhat the
large place Campbell takes in the great
movements of the Santa Clara county,
and the enthusiasm displayed by the club
members give promise of a good work
from here. The committee consisted of
Secretary H. F. Enlay, Sheriff A. B.
Langford, Dr. L. B. Wilson, and Fred L.
Thomas. Mr. Enlay spoke briefly of
the general arrangements and the pro-
gram of the various days. Prof. Wilson,
of the entertainment committee, who is
interested more particularly in the part to
be taken by the San Jose Normal school,
said there would be a chorus of 500
voices, and the Queen and her ten at-
tendants would be accompanied by 600
girls. The crowning of the Queen will
occur on the forenoon of the first day,
and the great parade on the afternoon of
the second day, at 2 o'clock. There will
be entertainment of various kinds each
evening. One evening will be taken up
by Stanford University, and the boys
will do some of their popular "stunts,"
which no doubt will draw a crowd.
They will be accompanied by the Man-
dolin and Glee clubs.

Sheriff Langford, who is chief marshal
of the parade, stated that this would be
one of the great features of the Carnival.
It will be strictly a floral parade. No
floats bearing advertisements of a busi-
ness nature will be allowed. Schools,
commercial leagues, and business house
will simply display their names on the
floats. In order to get under the wires,
no float will be over 14 feet in height.
There will be no men or organizations
in line, except those who act as escorts
of the floats and these must be in uniform.
Mr. Langford stated that six Campbell
boys, between the ages 21 and 25 years,
are invited to be among the 40 mounted
men who will act as the Queen's escorts.
Campbell will be proud to see six of her
sons acting in this capacity.

A great many decorated automobiles
will be in line.

There will be no cash prizes given
away, but silk banners will be presented
for the best displays of the various en-
tries.

D. H. Coates moved that the Town of
Campbell take a booth in the pavilion
and also place a float in the parade. The
motion was unanimously carried. Mr.
Duncan moved to make Mr. Coates
chairman of the float committee. Mr.
Coates, however, requested that a
younger man be placed at the head of the
committee, and stated his willingness to
assist. Mr. Sawyer was then nominated
for the position but he also requested to
be excused as he has so many other
things demanding his time. As Mr.
Sawyer is such a general hustler and
thoroughly capable, the club would have
no refusal and he was unanimously
elected chairman of the committee, with
power to appoint four assistants.

The selection of a float committee
was referred to the Country Woman's
Club with the request that they take en-
tire charge of that work. As the
Woman's club have their meeting next
Monday afternoon it is expected that
their committee will be appointed at that
time and meet with the Improvement
Club in the evening for arrangement of
plans.

Each member of the club present at
the meeting was called upon for a speech
and each in turn expressed his willing-
ness to co-operate for the success of the
celebration.

After the important affairs of the occa-
sion were dispensed with a "jolly-up"
was indulged in and the many jokes and
stories made the evening a very enjoya-
ble one to those present.

The interest displayed by our veteran
citizen D. H. Coates had a tendency to
inspire enthusiasm in the younger men
present. He said that Campbell had two
humps and things will "keep humping"
from now on.

E. W. Preston an Expansionist

The spirit of expansion seems to be
spreading among our local merchants.
Last year C. B. Miracle opened up a
lumber business at Los Gatos, now E.
W. Preston the local bicycle dealer, in
company with Will Main has purchased
the John E. Ellis garage at Los Gatos,
located just back of the Lyndon Hotel.
The new firm name will be Main & Pres-
ton, and Mr. Main will give his time to
the business there. The experience and
popularity of these two men will insure
the success of the new venture.

LOCAL NEWS

A good second-hand ladies' Cleveland
bicycle for sale cheap. E. W. Preston.

The A. J. Snyder five-acre place has
been purchased by D. K. Denbigh, of
Berkeley.

Chas. White of Oregon, arrived last
Friday and is stopping at the home of C.
W. Gilman.

The Christian Endeavor Society which
was to occur tonight, has been post-
poned one week, to March 18th.

Mrs. J. H. Neff went to Los Angeles
last Thursday in response to a telegram
that her mother, who has been suffering
from a stroke of paralysis the past two
months, was worse.

Mr. and Mrs. D. H. Coates entertained
at their home Sunday Mr. and Mrs. Noble
of San Jose, Miss Eunice Beverley of
Mountain View, and Harry Hartwick of
Amador City, a nephew of Mrs. Coates.

The following notice clipped from the
Epworth Herald, Chicago, may interest
some of our readers:

"The Rev. G. A. Reeder of California
Conference has been chosen as secretary
of the army and navy branch of the
Young Men's Christian Association, with
headquarters at New York."

Mrs. Dwight V. Ross, Teacher of Pianoforte

Those wishing to arrange for lessons
can meet her at the residence of Mr.
Coates on First street on Thursday after-
noons between the hours of two and
four.

Mothers' Meeting at the Grammar School

At 2:30 last Friday afternoon about 50
or 60 mothers met with the teachers at
the grammar school, and discussed vari-
ous topics in relation to the children and
school. Professor Graves, who pre-
sided, gave a general talk on school mat-
ters. Miss Collins discussed health
questions, and Miss De Witt and Miss
Blauer talked on conduct and deport-
ment. Refreshments were prepared by
the teachers and a very profitable time
was enjoyed.

New Clubhouse for Union

Last week saw the foundation begun
for a new clubhouse, of which the "We
and Our Neighbors Society" is to be the
proud possessor. It is the donation of
Mrs. Maria P. Schofield, who has been a
charter member and President of the club
for the past 17 years; and through whose
executive ability the club has been held
together and kept in its high social stand-
ing.

The clubhouse is situated on the corner
of Union avenue and the Los Gatos-
Almaden road, one of the finest and most
central building lots in the district, the gift
of another highly esteemed charter mem-
ber, Mrs. Sophia La Montagne.

The building will be of the bungalow
style with pergola porch and will contain
a reception hall 10x10, gentlemen's
locker, ladies' dressing-room 10x12;
parlor 20x22; open fireplace and window
seats, hall 27x30 with stage 10x16;
ladies' and gentlemen's dressing-rooms,
8x10 each; dining-room 12x30 and
kitchen 10x12.

C. H. Wheeler, a well-known con-
tractor of Los Gatos, is the architect and
builder, and the work is progressing rap-
idly.

The members feel that there is no bet-
ter or more appropriate gift that could be
given any rural community, than this
one, which brings the intellectual and
social elements together and encourages
the uplifting of the people.—San Jose
Mercury.

The local firm of C. B. Miracle is fur-
nishing the lumber and doing the mill-
work for the building.

HIGH SCHOOL NOTES

Last Thursday, the 10th, the afternoon
was given up to an inter-class field day
as a sort of preliminary to the I. A. L.
field day, which takes place soon. Dur-
ing this field meet the students had a
"goody" sale, consisting of candy, pies,
cakes, etc.

Next Monday the reports of scholar-
ship for the four school terms will be
made out.

Mrs. Call entertained a group of friends
at her home Wednesday afternoon. The
time was devoted to sewing. Refresh-
ments were served.

Congregational Church.

Sec. F. M. Tenny of the American
Board spent last Sunday with the Con-
gregational church and presented his
cause. Our church will raise its full
share \$140, for this great work. In the
evening he gave a Stereopticon Talk on
Missions in West Central Africa, having
a set of 54 beautiful colored slides. This
set was especially interesting to Camp-
bell as Miss Nellie Arnot, daughter of
Mr. and Mrs. Arnot of Sunnyside, is
working there. Some of the slides were
made from pictures taken by Miss Arnot,
and she herself was seen in one of the
views.

Next Sunday morning the Theme will
be: "Pilate, the Shifty," a continuation
of the special series of character studies
leading up to Easter.

C. E. topic: "Faithfulness that Wins."
Fred Bohman is leader. This is also C.
E. Day for "The Quiet Hour" in Califor-
nia.

Evening Theme at 7:30. "Life that
was Light."

Five minute talk in the morning to the
Boys and Girls on: "Cup or Sieve."

If you have no other church home, you
will receive a welcome here. You will
find the meetings, Bright, Brief and
Brotherly. Come and receive help by
giving it.

Geo. E. Atkinson, Pastor.

Why be annoyed with two pairs of
glasses when one pair of Kryptoks will
do the work of both?
No cement to loosen, no line to show
or gather dirt, in short a perfect bifocal
lens. Call and see them.

L. LION & SONS CO.

OPENING WEEK

New Location

Second & San Fernando Streets, San Jose

Welcome to San Jose's largest and finest home furnishing
institution. We're ready—ready with a showing of furniture, car-
pets, rugs, linoleums, bedding, etc., that is unsurpassed in com-
pleteness and beauty on the Pacific Coast.

We want you to come—to look around—to familiarize your-
self with this fine, new, big store. Visit the various floors—ad-
mire the different lines of furnishings—note the wonderful diversity
of styles, the beauty of the individual pieces, and the remarkably
low pricing that prevails throughout the whole.

You'll be accorded the same careful, courteous service that
has always characterized the Lion store. Feel just as free to stroll
around "loking" as you will be if you buy. We want this to be
your store in a very real sense—and we've spared no effort to pro-
vide a pleasant, comfortable, convenient trading place.

"Your Credit is Good"—same as ever. When you're ready
to furnish your home, come in and select what you want, pay a
little down, and the balance a little at a time—each week or each
month.

Mail Orders Filled—We Pay The Freight Charges.

Second & San Fernando, San Jose

NEWS OF WEEK FROM ALL THE COAST STATES

Occurrences Along the Pacific Slope Presented in Com- pendious Array.

Passing Events Among Your Neigh- bors Briefly Told in Short, Newsy Paragraphs.

Salinas.—The Charles Harbaugh cigar factory burned. The loss is estimated at \$4,000.

Berkeley.—The Board of Health has fathered an ordinance making it a misdemeanor for residents or dairies to keep cows infected with tuberculosis.

Los Angeles.—It was announced at the offices of the San Pedro, Los Angeles and Salt Lake Railroad that the line would be reopened to transcontinental traffic by June 1st.

San Jose.—At a meeting of the student body of the State Normal school in San Jose the number of maids who will attend the queen of the Rose Carnival to be held next May was increased to twelve.

San Jose.—Residents of the southern end of the city who are compelled frequently to use the First street railroad system are up in arms because the management has declined to issue twenty-six-ride books of tickets which formerly sold for \$1 and saved many nickels for regular patrons of the line.

Sacramento.—The state health authorities will present a bill for passage at the next Legislature providing for the abolition of the public watering troughs. They agree that all forms of animal diseases, especially that of glanders among horses, is spread broadcast through the use of the public troughs.

Sacramento.—State Controller Nye has prepared figures showing expenditures from the general fund of the state in February to be \$560,086.78, and from other funds \$417,094.07. Of the money spent under the head of special funds \$157,288.29 was for San Francisco harbor improvements and \$25,736.06 for the San Francisco seawall.

Pasadena.—Mrs. Russel Sage has made her first public gift in California. The benefaction consists of a \$1,000 gift to the Pasadena Hospital. It is said by those who have become close to Mrs. Sage since her stay here that before leaving her winter retreat she will probably endow, or partly endow, a woman's college for southern California.

Petaluma.—An albino gopher was caught recently by Charles Hallmell and has been secured by the museum in Golden Gate park, San Francisco. The animal is pure white, has pink eyes and pink feet. No one here remembers ever having seen one in captivity before, but traps have been set in the place where this was found, as others have been seen.

Los Angeles.—Litigation extending over a period of eight years was ended when all of the heirs of the estate of Andrew J. W. Keating, known as the nitrate king, signed an agreement for the final distribution of the estate. A clause of the agreement is that no further contest of the will shall be made by any of the heirs. The estate, consisting principally of land in California and Chile, is valued at \$1,250,000.

Redlands.—Thirty orchardists of Oak Glen, the mile-high apple-growing district east of Redlands, have attached their signatures to the following pledge: "We agree against the future employment of any Hindus, Koreans or Japanese in Oak Glen and vicinity, as a protection for our homes and families." The crusade against Oriental labor results from the recent action of a rancher in employing twenty Hindus to chop wood. Armed with rifles, a party of neighboring ranchers marched the Hindus out of the district.

Oakland.—Health Officer Deutor last week condemned 120 dozen cold storage eggs that had outlived their usefulness. The eggs were the property of a local commission merchant and were secured by him from W. C. Price of San Francisco. They were to have been shipped to an up-country dealer. Price formerly was in business in Oakland, but is said to have been driven out of business here through his persistence in selling impure foods. Within the last two months the local health authorities have condemned and broken 1200 cases of bad eggs.

RUSSIANS REFUSE TO WORK IN HAWAIIAN SUGAR FIELDS

Claim Immigration Agents Promised Wages That Planters Will Not Give.

Honolulu.—Another experiment by the Hawaiian board of immigration in its efforts to find a solution for the labor problem in the islands appears to be a failure. After importing Spaniards, Portuguese, Porto Ricans and South Sea Islanders, all of whom proved unsatisfactory or left the plantations dissatisfied with wages and conditions, the planters turned to the Philippine Islands and to Siberia for immigrants.

Four hundred Russians, men, women and children, who were brought here on the last steamer from the Orient, refuse to go to work on the sugar plantations. They assert that as inducement for them to come to the islands the agents of the immigration board at Harbin said that they would receive \$45 a month, double the sum that is being offered them here. Also that they have been told that the plantation work is hard, the cost of living high and that they would be compelled to buy their supplies at the plantation stores at high prices, leaving them in debt to the planters at the end of the month.

The children are being fed by charitably disposed people of Honolulu. There is some indication of riotousness among the disappointed immigrants and the authorities are very much puzzled to know just what action to take.

The immigrants employed an attorney and may appeal to the Russian consuls at San Francisco and Yokohama.

Death of Ex-Senator Platt.

New York.—Thomas Collier Platt, formerly United States Senator from New York, and for many years a national figure in Republican politics, died Sunday afternoon in the apartments of Mr. and Mrs. Gustave Abele, on West Eleventh street, from whom he had rented three rooms for the last three years. Mrs. Abele had been his nurse.

His physician said that the cause of his death was chronic and acute Bright's disease. The body was removed to the home of Frank H. Platt, a son, and later taken to Oswego, N. Y., the Senator's birthplace, for burial.

Saloons Near Navy Yard.

Tacoma, Wash.—The city council of Bremerton last week disregarded an agreement made five years ago with the Navy Department by increasing the number of saloons adjacent to the Puget Sound navy yard from five to seven. The action was taken, so far as known, without the cognizance of the Navy Department. No opposition is expected from the Government as long as the saloons are conducted in an orderly manner. The Bremerton council recently raised the license fee from \$1,000 to \$2,000 per year.

Court Overrules Legislature.

Sioux Falls, S. D.—Judge Carland of the federal court rendered a decision which is a complete victory for the express companies doing business in South Dakota. He holds in substance that the act of the legislature did not give the board of railroad commissioners authority to make the schedule of rates complained of by the express companies, which was a general reduction of 20 per cent from the rates in effect January 1, 1909.

State to Operate Coal Fields.

Guthrie, Okla.—Representative Castlet introduced in the lower house of the Oklahoma Legislature a series of bills contemplating the creation of a State Industrial Commission which shall purchase the coal, oil and gas lands of the State, manage and operate them and sell the product to State institutions and private consumers.

France in Accord With Knox.

Paris.—The French Government has replied to Secretary Knox's proposal to the powers looking to the establishment of a permanent international court of arbitral justice, accepting the proposition in principle, but making certain suggestions which the French Government believes will bring all the other powers into accord.

Homeless Through Floods.

Cleveland, Ohio.—About 4,000 persons are now homeless in Ohio as a result of floods. Many plants have been forced to close down and hundreds of men and women are out of work. The material damage is estimated at over \$1,000,000.

Fast Trotter Sold.

Lexington, Ky.—George Gano, 2:03 1/2, the trotter, has been sold to M. W. Savage of Minneapolis for \$30,000. Last year the trotter won nearly every important stake, pulling down close to \$15,000 for his owners.

THE STATE CAPITOL OF CALIFORNIA

By CHARLES F. CURRY, Secretary of State.

(Ex-officio Member of State Capitol Commission)

(It is the aim of almost every State to have a beautiful capitol building. Millions have been expended for structures that are a lasting monument to the artistic sense of the designers. For beauty of finish, solidity of construction and magnificent surroundings California's capitol building at Sacramento is remarked by all who have visited it as one of the handsomest in the entire Union. During 1906-07-08 the building was remodeled. The work was done under the supervision of the State Capitol Commission, and the results are a lasting testimonial to the taste, judgment and honesty of the Commissioners. Hon. Charles F. Curry, Secretary of State since 1899, was a member of the commission, and, in that capacity during the terms of both Governor Pardee and Governor Gillett, had more to do with the work of reconstruction than any other State official. For the benefit of those people of the Golden State who have not seen the building, and for those who have expressed a wish to know its details, Secretary Curry has written the following full history and description of the capitol whose final completion, at such small cost in view of the results obtained, is largely due to his efforts.)

THE California State Capitol, located in the midst of a tree-studded park of about 33 acres, extending from L to N streets from north to south and from Tenth to Fifteenth streets from west to east, surrounded by broad walks and carriage drives, and approached from the four sides by stretches of green sward surrounded by two grass covered terraces, is one of the most beautiful, best constructed, substantial and commodious capitol buildings in the United States. Work was commenced on the foundation September 24, 1860. The corner stone was laid with imposing Masonic ceremonies on May 15, 1861, and the building was completed according to the original plans as amended, which left the attic and basement unfinished, in the year 1874. The building was first occupied by the Governor and other state officers November 26, 1869. The Supreme Court met in the building for the first time December 3, 1869, and the Legislature took formal possession of the building on December 6, 1869. The occasion was observed by the firing of a salute and a general display of flags in Sacramento. The cost of construction was \$2,600,000.

During the years 1906-07-08, under the administrations of Governors Geo. C. Pardee and J. N. Gillett, the State Capitol Commission, composed of the Governor, the Secretary of State and the State Treasurer, expended the sum of \$372,925 in completing the attic and basement; remodeling parts of the interior; installing new engine room machinery and steam heating plant; plumbing and rewiring the building

around the bay, made it almost impossible to obtain building material and secure the services of mechanics during the wonderful period of civic reconstruction which followed, and delayed the completion of the work on the capitol building more than a year, but all will agree that the state capitol as it now stands is a credit to the architects, the superintendents of construction, the contractors, and to the mechanics who worked on the building.

The capitol is constructed on the florid Roman-Corinthian style of architecture. The building has four stories and a basement and contains 146 rooms. Seventy rooms were added to the original number by the remodeling work recently completed.

The exterior walls of the basement and first story are constructed of California granite, the three upper stories of hard burned brick covered with mastic and four coats of white paint. The walls of the building average 6 feet in thickness, and the stone and brick were laid in cement mortar. The north, south, and west walls of the building are of perpendicular and horizontal construction. The east side has an L extension 90x80 feet on each end and a half-dome shaped extension 80 feet long between them, with a space of 35 feet between its either side and the north and south L.

There are two entrances on the east, one each on the north and south, and one—the main entrance—on the west side of the building. The entrances to the building on the north, south and west sides are through massive arched granite porticos, supporting colonnades of iron pillars making other porticos on the second or legis-

DIMENSIONS AND COST OF THE STATE CAPITOL BUILDING AT SACRAMENTO, CALIFORNIA.

Height from junction of Tenth and M streets to ball of dome—240 feet.	Circumference of rotunda, first floor—160 feet.
Height of main building—94 feet.	Average size of offices—28 by 28 feet.
Length of building—282 feet.	Number of volumes in State Library—156,000.
Length of main halls—232 feet.	Cornerstone laid in the year 1860; completed in 1874.
Width of main halls—15 1/2 feet.	Grounds cover 19 blocks—39 acres.
Across base of rotunda, first floor—53 1/2 feet.	360 different varieties of trees in grounds.
Size of Assembly Chamber—73 by 75 feet, and 38 feet high.	Cost of building—\$2,600,000.
Size of Senate Chamber—73 by 56 feet, and 38 feet high.	Remodeled 1908, cost—\$372,000.

throughout for telephone, telegraph and electric lighting purposes, and furnishing it with new electric light fixtures; putting in two new elevators and dynamos; cementing the floors of the basement and of the third and fourth stories; tiling the second story corridor with mosaic; putting in iron stairways throughout, from the basement to the top of the dome; putting on a steel and concrete and asphaltum roof; repainting the interior and exterior of the building, etc., and making the building as nearly fireproof as possible. The doors, window frames, a few of the floors on the first and second stories, and the furniture in the offices, only are of wood, and the few wooden floors are laid on brick and cement.

The total cost of the building, including this work, was \$2,972,925. Competent architects have stated that the building cannot be duplicated for \$5,000,000.

The plans of the capitol were drawn by Mr. F. M. Butler and were selected by the commission on May 19, 1860, as the best and most artistic of seven competitive plans submitted. Mr. Reuben Clark was appointed superintending architect, which position he held until the latter part of 1865, when he had to resign on account of ill health. On January 1, 1866, Mr. G. P. Cummings was appointed superintending architect; later Mr. A. A. Bennett succeeded Mr. Cummings, and the building was completed under his supervision.

Messrs. Sutton & Weeks were the architects of the remodeling work now completed, their plans having been selected by the Board of Capitol Commissioners from five competitive sets submitted. The board secured the services of Mr. H. A. Schultz as consulting architect, and Mr. S. W. Getchell was appointed superintending of construction. The contracts for repairing and remodeling were let April 13, 1906; the work was completed in the middle of 1908. The earthquake and fire of April 18, 1906, which nearly destroyed San Francisco and damaged other cities and towns in the region

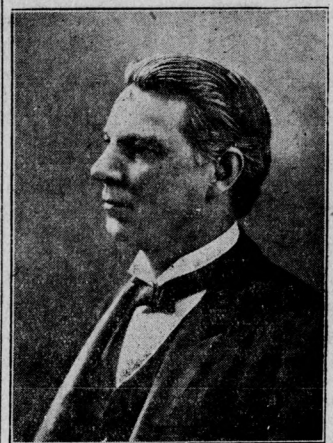

lative halls story. The main entrance to the building, facing the west, is through a storm door, there being also a small hardwood door on either side of the storm door. The corridor at the entrance is of Utah white sandstone trimmed with a California marble base and large panels of California onyx framed with marble. The doors of the other entrances to the building, and to the portico on the front of the building on the second story, and the entrances to the assembly and senate chambers are of massive hand-carved walnut.

The basement is used for storage and record rooms for the several State officers, for the State archives, and for the armory; for the receiving and shipping of goods, books, etc., by the State janitor, State library, armory and other departments. The engine rooms, dynamos and meter rooms are also located in the basement.

The corridors of the first floor are beautifully tiled; a colored representation of the great seal of the State in the panels 6 feet square ornaments the entrance to each of the corridors. The rotunda is richly and artistically decorated with colored, stucco work. The wall panels are scroll and figure work, and the half-dome on the first floor is ornamented with scrolls, and representations of mining, of science, literature, art, music, seed time and harvest. There are niches in the rotunda on the first and second floors which may some day hold marble statues, the example of D. O. Mills is followed. In the center of the rotunda, facing the entrance, is the marble statue in heroic size of the last and effective appeal of Columbus to Queen Isabella of Spain for ships and supplies with which to make his voyage of discovery across the uncharted Atlantic. It represents the scene where he is explaining his idea of the roundness of the earth to Isabella, and she is supposed to have said, "I will assume the undertaking on behalf of the crown of Castile, and will pledge my jewels to defray the expenses of it, if the funds in the treasury shall be found inadequate." This exquisite piece of statuary in Carrara marble,

was executed by Larkin Goldsmith Meade, an American sculptor, in Florence, Italy, between the years 1868 and 1874. Meade was born in New Hampshire, in 1835, and early exhibited artistic talent which attracted the attention of Nicholas Longworth, of Cincinnati, the father of the present Congressman of that name from an Ohio district. Mr. Longworth provided for Meade's artistic education, and he became one of America's greatest sculptors. Mr. D. O. Mills bought the statue from Mrs. Legrande Lockwood of New York for the sum of \$30,000, and presented it to the State of California.

On the first floor are located the offices of the Governor, Secretary of State, State Controller, Board of Equalization, law library, State Treasurer, Clerk of the Supreme Court, Attorney General, and the court room of the second district Court of Appeals, the chambers of the judges and the offices of the clerk, bailiff, and stenographer

CHARLES F. CURRY.

of the court. These offices are all handsomely decorated and richly furnished.

The main feature of the decorations in the Governor's private and business offices is the California poppy in cloud and sky effects on the ceiling and frieze of the walls, which are tinted a delicate green with a five-foot base of pure white lincrusta decorated with gold leaf scrolls. The walls of the Governor's reception room are tinted a dark red, the decorations on the ceiling and frieze being paintings of California wild flowers. The furniture in the Governor's rooms is mahogany with the exception of the record cases which are of hand carved black walnut. The carpets in the Governor's private and business offices are red Wiltons; in the reception room the carpet is a rich green velvet. Oil painted portraits of the ex-Governors are hung in the several rooms of the State officers; most of them, however, are to be seen on the walls of the Governor's offices.

The rooms of all of the State officers are beautifully and uniquely decorated and furnished, no two being alike. The walls of the rooms are tinted and the ceilings and friezes are decorated with the seal of the State and with flowers, such as roses, magnolias, and wild flowers, or scroll work touched up with gold leaf as the central idea, or they are painted to represent a piece of tapestry or an oriental rug. The furniture is either mahogany, black walnut or oak. The furniture and decorations, and the carpets, or hardwood, or ricotele floors, as the case may be, are arranged so as to produce a harmonious and pleasing effect.

In accordance with the wishes and tastes of Judges Chipman, Hart and Burnett, the Appellate courtroom is plainly, but richly, furnished and decorated. The doors, baseboards, window-cases, and the Judges' bench are of Philippine janizero, a wood having the appearance of light reddish mahogany, but richer. The attorney's table and the chairs in the court room are mahogany, the floor is laid with a figured green Wilton carpet. The walls and ceiling are painted plainly, the walls being a delicate green and the ceiling and frieze an harmonious color scheme.

On the second floor are located the offices of the State Printer, State Janitor, State Forester, Surveyor-General, and the Senate and Assembly chambers. The Senate chamber is located in the south L and the Assembly chamber in the north L on the east of the corridor. In accordance with custom, the Senate chamber is furnished in red, and the Assembly in green, the members' desks are black walnut, the presiding officer's and clerk's desks are hand-carved mahogany. Neither one of these rooms is decorated, and the ceilings and walls of both are white with the exception of the lobbies under the galleries, which are painted green in the Assembly and blue in the Senate. A five foot lincrusta border above the marble base is painted red in the Senate and green in the Assembly chamber. In the Senate chamber hangs a magnificent oil painting of Washington, and in the Assembly one of Lincoln. On the frieze over the Lieutenant-Governor's chair in the Senate Chamber is the following Latin motto in gold leaf: "Senators est civitatis libertatem tuere." ("It is the duty of a Senator to guard the liberty of the commonwealth.") On the frieze over the Speaker's chair in the Assembly is the following Latin motto: "Legislatorum est justas leges condere." ("It is the duty of legislators to make just laws.") The Senate and Assembly chambers are wainscoted with California marble, and are large, roomy and well lighted. The acoustics are excellent. Ample accommodations are provided for the presiding officers, clerks, and sergeants-at-arms of the two houses in rooms adjacent to the chambers, and a large gallery in each chamber for the sight-seeing public. During the Sacramento term of the Supreme Court the judges sit in bank in the Senate chamber, and hold court in departments in the Appellate court room.

The corridor of this, the second floor, is tiled with marble mosaic, in panels; in each corner and the center are representations of bunches of California poppies.

The library has a large dome-shaped room off the corridor on this floor; in fact the library has been assigned rooms on every floor in the building

PITHY RESUME OF EVENTS OF ENTIRE WORLD

Brief Paragraphs That Give Busy Readers Review of Week's Happenings.

Summary of News Gathered by Correspondents Located in Every Quarter of the Globe.

Louisville, Ky.—Eva Tanguay, the theatrical star, was fined \$40 in the police court here for stabbing a stage hand with a hatpin.

New York.—At the Bronx Zoo, Sheke, the only two-horned male rhinoceros in captivity, is dead after a long illness. He was valued at \$10,000.

Galesburg, Ill.—In a head-on collision of trolley cars of the Illinois Electric Interurban Railroad near Canton, three persons were killed and fifteen passengers injured.

New York.—In fighting a fire which destroyed the tenth floor of a 12-story office building in Murray street, occupied by printing firms, Harry Burgess, a fireman, was instantly killed. Burgess walked into the elevator shaft and fell 10 stories.

New York.—While Pierre Garvin, prosecutor of Hudson county, N. J., is trying to get possession of the books of the six big packing companies recently indicted with their officers and directors, a Grand Jury in New York is making an investigation of the poultry trade here.

New York.—For refusing to write a letter of apology to the woman who she named in a divorce action, Mrs. Kathryn A. Stubbart was fined \$500. The Court directed her to pay the money to Mrs. Mary Hartzel, whom she named when suing Dr. Edward Stubbart, a tuberculosis expert.

Indianapolis, Ind.—Mayor Shank says he will make an effort to have women appointed to the police force of Indianapolis. The Mayor's plan is to place women on beats in the downtown districts to clear the streets of objectionable characters. The scheme has been submitted to the Board of Public Safety.

London.—The Court of Common Council unanimously conferred the honorary freedom of the city on Theodore Roosevelt in recognition of the "distinguished services to civilization during his presidency and his efforts toward the maintenance of the peace of the world." Mr. Roosevelt will visit London the middle of May.

New York.—A new indictment against F. Augustus Heinze for alleged violation of the national banking laws was returned by the Federal Grand Jury here. This is the Government's fourth attempt to connect Heinze with certain phases of the alleged misapplication of the funds of the Mercantile National Bank.

Annapolis, Md.—Baseball candidates at the Naval Academy this season will try out a new pitching gun, which is expected to give them all the preliminary training needed to face any rival pitcher. The gun, in throwing a ball from the pitcher's box over the plate, may be made to give a curve as wide as eight feet in any direction by a simple regulation in the breech.

and occupies about twenty per cent of the floor space of the entire capitol.

On the third floor are the galleries of the Senate and Assembly chambers, and the offices of the State Board of Examiners, Superintendent of Public Instruction, Adjutant-General, Horticultural Commissioner, State Veterinarian, State Board of Health, State Commission in Lunacy, and State Engineering department.

The fourth floor, with the exception of the space occupied by the library and three rooms that have been assigned to the architect's department of the State Engineer's office, has been designed for legislative committee rooms and employees' offices, which were much appreciated by the members of the last legislative session, as theretofore there had not been enough rooms in the capitol to provide a sufficient number of committee rooms for the accommodation of the Legislature.

The view will repay one for climbing the iron stairs from the fourth story to the top of the dome. If one should get tired, he can stop at the first or second landings, one-quarter or one-half way to the top, and walk around the outside of the dome, at either of those stations, and the view will be delightful; but if he will continue on and climb the winding stairs to the very top he will obtain a magnificent panoramic view of the Sacramento Valley and its surrounding mountain ranges. On the east can be seen the Sierra Nevada, on the west the Coast Range, away off to the north the snow capped peak of Mount Shasta, and to the south, Mount Diablo. The course of the Sacramento and of the American rivers can be traced for miles through the valley to where the American is seen to empty into the Sacramento at the northwest corner of the capitol city, and their course as one river can be traced for miles on its winding way towards the sea.

No Appetite

"I took Hood's Sarsaparilla when I was a very old woman, had no appetite whatever, and could not sleep more than three hours a night. I was persuaded by a friend to try it, took two bottles of it, and it greatly benefited me, gave me a good appetite and sound sleep." Mrs. JOHN EDENS, 2220 W. 3rd St., Davenport, Iowa.

Hood's Sarsaparilla restores the appetite and makes sleep sound and refreshing by building up the whole system. It purifies the blood, strengthens the nerves, aids and perfects digestion. Take it this spring.

Get it today in usual liquid form or in tablets called Sarsatabs. 100 Doses One Dollar.

PUMPS

FOR ALL PURPOSES

No matter how small or large a pump you need, or for what purpose you intend to use it, Reliability is the characteristic you should look for.

You don't want to be disappointed at the time you need it most.

The Pumps we carry are made by the oldest pump makers in the U. S., with a record of nearly 80 years of excellence.

Pumps and pumping machinery—force pumps, wind-mills, outfalls, hydraulic rams, etc.

Animals and Instinct.

It is a mistake to imagine that animals are prevented by instinct from eating injurious food. A chicken will drink paint; a cow partakes of water in which noxious chemicals have been washed; ducks cheerfully swallow snails and choke themselves in the process. No; animals, like children, need watching.

Recently numerous cases of poisoning in ducks, which followed the consumption of cabbage leaves, have attracted much attention. A few hours after feeding poisoning has manifested itself by loss of appetite, great weakness, tottering steps and sometimes death. From time immemorial ducks have thrived on cabbage leaves. The poultry farmers were greatly puzzled.

Then it was discovered that various caterpillars were concealed in the cabbage leaves; hence these tears. But the point is that, far from instinctively detecting any danger and behaving accordingly, the ducks consumed great quantities of the leaves with much apparent relish.—London Answers.

Big Logs for China.

When she leaves Linnton for China the steamer M. S. Dollar will have on board one of the most singular cargoes of lumber that has ever left the port, says the Oregon Journal. Her deck load is composed of huge unsawn logs which are destined to go into a Chinese temple.

There are about twenty-five of these logs and they range in length from 105 to 106 feet. They average about forty-three inches at the butt and each weighs in the neighborhood of fifteen tons. They will be discharged somewhere along the river between Shanghai and Hankow, after which they will have to be taken a long distance into the interior of the country, where they will be used in making repairs to a Buddhist temple which is many centuries old.

The work of transferring them from the coast to their destination will be an enormous task, as for most of the way they will have to be transported by the most primitive methods, and it will be the work of months to get them to their destination.

Uncomplimentary.

Harry Payne Whitney, the noted polo player, at a dinner in Newport discussed an eccentric groom.

"He is a good chap, for all his eccentricity," said Mr. Whitney. "He testified once in a horse trade case, and called down a cross-examining lawyer neatly. The lawyer, a hideously ugly man, cross-examined my groom like this:

"Now be careful. Does he shy, or does he not?"

"He does, sir."

"He does, eh? And what does he shy at?"

"At lots of things, sir."

"At lots of things! That is no answer. Tell me some particular thing he'd shy at."

"Well, he'd shy at you, sir," said the groom.

DR. MARTEL'S FEMALE PILLS

Seventeen Years the Standard

Prescribed and recommended for women's ailments—a scientifically prepared remedy of proven worth. The result from their use is quick and permanent. For sale at all drug stores.

The first bituminous coal mined in the United States was found near Richmond, Va., early in the eighteenth century.

The way to a man's heart is through his stomach—Use Port Costa Flour.

A Twister.

The little girl was starting to join her mother, who was visiting friends in a neighboring city. "Tell mamma," said her father, as he put her on the train and kissed her good-by, "that I am taking good care of the flowers in the back yard."

"I will, papa."

"And be sure to tell her that the goldenglow is growing gloriously."

"I'll remember, papa."

The train moved off and she was gone. An hour or two later she delivered the message.

"Mamma," she said, "papa told me to tell you that he was taking good care of the flowers."

"I am glad to hear it, dear."

"And I was to be sure to tell you that the goldenglow is glowing—no, the goldenglow is going—I mean the glorygory is glowing gloriously—the glorygory is going—mamma, what is the name of that big yellow flower that grows in the back yard?"

"The goldenglow, dear."

"Well, he says it's doing first-rate."

Her Playing.

Mrs. McDuff—This paper says that mice are attracted by music, but I don't believe it.

McDuff—Why not?

Mrs. McDuff—Because I never see any mice around when I play the piano.

McDuff—Well, that's no reason for doubting the paper's statement.

The Chinese soya bean has been found to contain from 15 to 16 per cent of oil suitable for soap making.

Trial Package Free

Every Man or Woman Suffering From Consumption, Bronchitis, Asthma, Catarrh, Hacking Cough and Throat or Lung Trouble Should Write at Once.

Dr. Hill Says:

"Consumption is positively and absolutely curable and preventable. All authorities agree that this is so. I say it can be cured in the privacy of your own home, and I am proving it day after day. I say it is no longer necessary to travel away from home and friends, I am treating right today, cases of advanced and desperate consumption, which have been given up by their friends and advised to move to another climate, perhaps to die. But they have remained at home under my 'Rational' Treatment, with results that would quicken the heart of any man to see."

Everyone who has weak lungs, Catarrh of the Bronchial Tubes or Catarrh in any form, Chronic Bronchitis, Asthma, Chronic Hacking Cough, Loss of Flesh, Night Sweats, Hemorrhages, soreness or pain in the chest or under the shoulder blades, or any other deadly symptom of Consumption, should send for a trial package of Dr. Hill's New Rational Remedy and testimonials from hundreds who have been cured. This treatment quickly checks further progress of the disease and produces new resisting power, appetite, flesh and good health.

Any bank or business firm in Jackson, Michigan, will tell you Dr. Hill is reliable, I successful and a prominent citizen in excellent standing. All throat and lung sufferers should fill out coupon below and mail at once for trial package which the doctor sends by mail, prepaid, to prove that even the worst cases can be cured at home at little expense.

Trial Treatment Package Coupon.

Dr. J. Lawrence Hill, 1662 Hill Building, Jackson, Mich. Please send me your large trial package in plain, sealed wrapper, that I may try it and see for myself if it will do what you claim it will. I enclose 25c to help pay for packing, etc.

Mrs. Cora B. Miller Wants To Send A 50c Box of Her Remedy Free To Every Woman Suffering From Any Form of Female Weakness or Piles.

Home of Mrs. Cora B. Miller, Kokomo, Ind.

In a few years she has spent thousands of dollars in giving free Medical Treatment to afflicted women.

This is the simple, mild and harmless preparation that has relieved so many women in the privacy of their own homes after doctors and other remedies failed.

It is especially prepared for the treatment of female diseases, displacements, falling of the womb, irregularities, painful periods, leucorrhoea or whitish discharges, ulceration and tumors, also pains in the head, back and bowels, nervousness, melancholy, desire to cry, hot flashes, weariness and piles from any cause, or no matter of how long standing.

Every woman sufferer, unable to find relief, who will write Mrs. Miller now without delay, will receive by mail free of charge, a 50-cent box of this simple home remedy, also a book with explanatory illustrations showing why women suffer and how they can treat themselves at home without the aid of a physician.

Don't wait another day; not necessary to write a letter, simply send this notice with your name and address at once to Mrs. Cora B. Miller, 8061 Miller building, Kokomo, Indiana.

Slow Fire.

Rare Metal in South Dakota.

The Black Hills of South Dakota contain deposits of ores of the rare metals tin, tungsten and tantalum, which have been examined by Frank L. Hess, geologist of the United States Geological Survey, whose report forms a paper in the survey's bulletin 380.

The lack of commercially valuable tin deposits in the United States gave especial interest to the discovery of tin ores in the Black Hills. The deposits occur in the northern part of the hills at Tinton and in the southern part near Hill City, Keystone, Oreville and Custer. Mr. Hess sketches the geology of the tin deposits as exposed at the various mines and claims and gives brief accounts of their commercial development.

Tungsten deposits occur in the Black Hills at several places, but have been exploited commercially only at Lead, in the central hills. The valuable ore is wolframite. Tungsten is of especial interest and value in connection with its use in tool steel and as a filament in incandescent electric lamps.

The tantalum of the Black Hills occurs in the mineral columbite. The known deposits of columbite in the region are described in detail by Mr. Hess. Tantalum is also used in making filaments for incandescent electric lamps.

FIFTEENTH YEAR **No. 35**

BOOSTERS' PLEDGE
 "On my word of honor, I hereby now declare that as long as I am
 a resident of this community it will be my constant aim to boost all the
 time and every time. I will do what I can for any public work that has
 the good of the community as its object. I will submit and abide by
 majority rule and will not knock and howl my head off if things are not
 done my way. I will take no radical or extreme position on the ques-
 tion before the people and will have due regard for the opinions of my
 friends and neighbors when their opinions are opposed to mine. I will
 always try to say something good for my town and my people, or I'll
 keep my 'bazoo' shut, and 'cut it out' like a man. I realize that if this
 community is good enough to live in, it is the proper place to spend my
 money in, especially when I am patronizing legitimate industries. I
 will do all within my power to foster, promote, build up and support
 every legitimate industry or enterprise in my home town."—Ex.

SAVE THE ADOBES
 San Jose is very enthusiastic in her efforts to give publicity to her
 many attractive features, but has shown very poor judgment in at least
 one direction. She fails to appreciate the value of the old adobe build-
 ings built by the Spaniards. The last of these, the Sunol place on South
 Market street, beside the Interurban depot, was recently sold and is be-
 ing razed to be replaced by a modern structure. The spirit of the peo-
 ple was displayed when, after the workmen began tearing down the
 building, a hyena-like mob began pillaging for hidden treasures. When
 completed this "modern" building will probably be placed on a souvenir
 post card and sent East to show people what fine architects we are in
 California. The Native Daughters and the Outdoor Art League, who
 sought to save and restore the old landmark, have the right idea. If
 San Jose had a few of these old adobe buildings displayed on her sou-
 venir cards they would be a hundred times more attractive to tourists.
 Her little "modern" structures receive nothing more than a passing
 glance.

CLEAN COUNTY PETITION
 At the meeting of the Supervisors last Monday at the Court House,
 the Clean County Committee, represented by R. B. Cherrington, cam-
 paign manager, and Prof. R. L. Green of Stanford addressed the Board
 and presented the mammoth petition that has been in circulation about
 the county for several months asking the Supervisors to pass an ordi-
 nance relating to the licensing of saloons and providing methods for
 the submission of the question of saloon licenses to a vote of the people.
 The board received the petition and referred same to the ordinance
 committee.
 The results of the campaign, so far as obtaining signatures to
 the petitions and the sympathy of the general public is concerned, has
 been highly satisfactory and it is now "up to" the Board of Supervisors.
 The liquor interests are awake and not only are they ready with legiti-
 mate means to defend their pernicious business, but the lawless element
 which its fathers is at work. Various threats have been made with an
 effort to drive some of the workers from the field. On one occasion,
 after making a speech, Mr. Cherrington found his harness badly cut to
 pieces. Such methods only tend to create stronger feeling against the
 whiskey business.

Robert E. Peary declines to submit proofs of his discovery of the
 North Pole to the sub-committee of the House Naval Committee. His
 reasons being that a contract with his publishers would not permit his
 proofs being made public. On the other hand, Mr. Peary would like to
 be made a Rear Admiral and retired from the navy department with a
 good salary for life, in recognition of his services to the country. The
 principal benefits of the Commodore's discovery is a good demonstra-
 tion of the Yankee grit and perseverance—the ability to do things. We
 are quite willing that Mr. Peary have all the honors due him and that
 he make a few hundred thousand dollars out of his lectures and writ-
 ings, but we are not willing to see him put his hand in Uncle Sam's
 pocket and take \$5,000 of the people's money each year.

Last Monday, March 7, was the sixty-first birthday of Luther Bur-
 bank, the California horticultural wizard. This date has been officially
 designated and set aside as Arbor-day. Mr. Burbank is one of Califor-
 nia's greatest men in the matter of practical usefulness to the State, and
 it must be very gratifying to him to know that his services are recog-
 nized while he lives and works. The world's custom has always been
 to show its regard for its benefactors after they have gone. No man
 could be more honored than to have his birthday set apart as the day
 on which the children of the schools and other organization place new
 roots into the benevolent bosom of the earth.

In investigating municipal drinking fountains the State Board of
 Health finds that people lay aside class and color prejudice and throw
 caution to the winds when it comes to drinking water out of cups
 chained in public places. Photographs taken by a state inspector show
 well-groomed men, an emaciated hobo, a negro, daintily attired misses,
 ragmuffins, and pampered pets all drinking from one cup. The time-
 interval between drinks was from one to five minutes.—Los Gatos Mail.

Saratogans will hold their Annual Blossom Festival on Saturday,
 March 26th. This gala day in the little foothill town has made that
 place famous far and wide, and each year attracts new residents. It
 was because of their first celebration, fifteen years ago, that Mr. David
 C. Bell of Minneapolis, was induced to locate a beautiful winter resi-
 dence there, and now he is one of the most valued promoters of the an-
 nual Festival.

The Press has received statistics from Matsuzo Nagai, Acting Con-
 sul General of Japan at San Francisco, showing the movements of the
 Japanese to and from the United States during the past two years. The
 figures indicate that 7,253 more Japs arrived in Japan than left there for
 this country.

The men who pay taxes will be interested in reading the article in
 the next issue on "Subsidizing Saloons."

MORELAND LOCALS

The Moreland Good Will Club met
 with Mrs. H. A. E. Rowlands Wednes-
 day and enjoyed a pleasant and instruct-
 ive afternoon.

The F. E. and C. W. held their regular
 meeting Wednesday evening at the More-
 land School House.

Mrs. H. A. Rowlands entertained at
 dinner Monday evening in honor of Miss
 Eaves and Mrs. West of Pennsylvania.

Moreland people are happy to hear of
 Mr. McCarty's recovery.

Mrs. Nugent of San Francisco is visit-
 ing at the home of A. M. McBride.

Mr. and Mrs. Scott of Prospect Ave.,
 leave this week for a trip to Los Angeles.

Mrs. Wells entertained a small com-
 pany Friday evening in honor of her
 friend Miss Ethel Schureman.

Mrs. Geo. Stewart left Monday even-
 ing to attend the bedside of her son Mar-
 vin Stewart who is lying very ill of Ty-
 phoid fever at Paso Robles.

CAMBRIAN DISTRICT
 Mr. and Mrs. F. C. Kady and two
 children from Mount Clemens, Michigan,
 are visiting Mrs. Kady's parents, Mr.
 and Mrs. E. W. Lewis and her sister
 Miss Jessie Lewis.

Mrs. Mary Evans and her daughter
 have returned home to Aronas after two
 weeks' stay with her parents, Mr. and
 Mrs. Joseph Bohnett.

Mrs. Thomas Bell left Friday for
 Fresno for three weeks' visit, will visit
 part of the time with her sister there and
 also with her son Floyd Bell who is
 teaching near Hanford.

Miss Lois Bohnett and her sister Mrs.
 Marion Stuart and her husband are visit-
 ing Prof. and Mrs. Powers at Paso
 Robles.

Mrs. Hauson's daughter has arrived
 from Colorado for an indefinite stay.

Alvin Coburn visited over Sunday with
 his cousin Mrs. Beacock.

Orange Thieves
 Dr. Cooper is mourning the loss of
 some nice oranges. Several times re-
 cently thieves have entered his yard dur-
 ing the night and helped themselves.
 Last Tuesday night they "hit the high
 places" of one choice tree, and even
 had the audacity to take fruit from a tree
 under the Doctor's bedroom window.

THE NEW MAGAZINE.
 The initial number of the Pacific
 Homeseeker, will be issued in March
 and will contain the most complete and
 authentic description of Pacific Coast
 conditions in California, Oregon, Wash-
 ington, Idaho, and other Pacific Coast
 States ever published in any Magazine.
 If you want to learn all about this won-
 derful country, send us 25 cents in sil-
 ver, or better still send \$1.50 for a full
 year's subscription, to the California
 Homeseeker's Association, 225 Ex-
 change Building, Los Angeles, California.

Grammar Boys Defeat the High,
 4 to 1

The Campbell Grammar school base
 ball team defeated the High school team
 by the score of 4 to 1.

Pitcher Freshlog was batted out the
 box in the fifth inning and was replaced
 by Crow of the High school team.

Some great catches were made by
 Kennedy and Gerow of the Grammar
 school.

The Grammar school has the best team
 it ever had and expects to have a fine
 season.

IMPLEMENTS
FOR FARM AND GARDEN

Not only a complete line of everything needed about the
 farm and garden—but a complete line of the BEST KIND. A
 farmer doesn't like to work with poor implements any more than
 a carpenter likes to work with poor tools. We've selected the
 various makes of implements with special regard to their serv-
 icability, and we stand behind every piece that we sell.

They're all made of the very
 best materials, built by the best
 known factories in the world, and
 will be in good working condition
 when many inferior implements are
 consigned to the scrap-heap.

If you can't come to the store
 in person, send your order by mail.
 We'll give it careful attention.

SEEDS
 Flower and vegetable
 seeds of all varieties. Fresh,
 true to name, full of vitality
 and life, and sure to grow.
 Don't waste your time with
 stale or inferior seed—plant
 the right kind—Farmer's
 Union kind.

Vol. 15, No. 35

SUNNY OAKS

The members of the Pandita Circle, and their husbands, with a few other friends, spent a very pleasant evening last Saturday at the home of Mr. and Mrs. F. Savage on Virginia Ave. The occasion was in honor of the Misses Palmer, who are soon to leave for an extended visit to Pomona. The program, which was very much enjoyed, was as follows:—

Farce, "A String of Pearls," Mrs. Beale, Mrs. Purmoit, Miss Vivienne Castle, Miss Chrissie Woodward, Mr. Purmoit, Mr. Bolt.

Piano solo, Miss Etta Lamson.

Recitation, "Martha Wentworth," Mrs. R. Alison.

Vocal Duet, "My Gypsy Countess," Miss Woodward, Mr. Purmoit.

While the refreshments of sandwiches, coffee and cake were being served, Mrs. Beale rendered several instrumental selections.

"Three Old Maids of C—," Mrs. Savage, Miss Palmer and Harriett Palmer.

Then "Nuts to crack" were passed which caused much merriment.

Piano solo, "Home Sweet Home, Miss Curry.

Auld Long Syne was sung by all.

Those present were Mrs. Sadler, Mr. and Mrs. F. Savage, Mr. and Mrs. S. G. Nelson, Mr. and Mrs. Ringe, Mr. and Mrs. Bohrmann, Mr. and Mrs. Beale, Mr. and Mrs. Alison, Mr. and Mrs. Curry, Mr. and Mrs. Purmoit, Mrs. Woodhulls, Mr. and Mrs. Mark Purmoit, Mr. Woodward, Mrs. Patterson, of Trenton, Mo., Mrs. Ellison, Mrs. Cook, Miss Gertrude Cook, Miss Palmer, Miss Kinnear, Miss Harriette Palmer, Miss Vivienne Castle, Miss Ella Bohrmann, Miss Etta Lamson, Miss Chrissie Woodward, Edith Lamson, Ada Nelson, Myrtle Woodward, Mr. Bolt and Mr. White of Berkeley, Cal.

Mr. and Mrs. Mark Purmoit have returned from San Francisco.

Mrs. Sadler went to Berkeley, Wednesday for a few days' visit.

Mrs. Woodhull left Wednesday for a few days' visit with her sister at Lake Pillsbury.

Mr. Phillips, a brother-in-law of Mrs. S. G. Nelson, and Mr. Elisen an attorney of Oakland, were here last week looking over the oil situation.

The Misses Palmer leave next week for a visit to Pomona.

When Mr. Woodhull was returning home after taking his wife to the station Wednesday his horse ran away throwing him out of his wagon and bruising him quite badly. He went to the County Hospital for medical attention, there were no physicians present so he came on to Campbell and had his wounds dressed. He had a similar accident at the corner of Virginia and Sunny Oaks Ave. several months ago. It is too bad that mail boxes and trees are placed in the centre of the cross roads and they should be removed.

UNION DISTRICT

Mr. and Mrs. J. J. Stanfield very pleasantly entertained the Euchre Club on last Saturday evening, March 5, 1910. The rooms looked very striking with the flowers which were profusely used. The score cards were pretty St. Patricks Day postal cards. Mr. O. J. Francis and Mrs. E. J. Howes won the first prizes, while Claud Bryan and Mrs. Cilker were considered the less fortunate. At a late hour delicious refreshments were served. Mrs. John Cilker will entertain the club on Saturday evening, March 19.

Master Francis Thompson of Santa Cruz is making an indefinite visit with his aunt Mrs. W. A. Riggs.

Mrs. Frank Johnson of Menlo Park is making a short visit with her parents here.

Will Gileney motored down from Oakland on Sunday and remained until Tuesday with friends here.

Mrs. W. A. Riggs spent Sunday visiting with relatives in San Francisco.

W. C. T. U.

The W. C. T. U. will meet with Mrs. Whitman on Wednesday, March 16th, at 2:30 p. m. An interesting program will be given, a portion being in the interest of the mothers' department.

Arrangements for the W. C. T. U. Institute to be held in Campbell at an early date, will be considered.

A cordial invitation is extended to any interested.

M. Earle Adams Goes to Colorado

On Saturday Mr. Adams will leave here for Lamar, Prowers county, Colorado, where he will take the foremanship of a daily newspaper and job printing office. Lamar is a town of 5,000, in the irrigation district, and rapidly growing. This new position promises to be an excellent opening in the newspaper line. The office has a linotype and cylinder press. Mr. Adams, once having become inoculated with that mysterious something which gets into a man after having a little taste of newspaper life, pines to get back again.

Miss Hattie Clark is spending a week's vacation visiting in Oakland.

What a sight! Those bonnets the men will trim tonight at the Methodist church.

Did you feel the shake last night, at 10:52? That was the worst shock since the great one. The seismograph at Lick Observatory recorded a duration of eight seconds.

J. H. Neff, while cutting wood at home last Monday, received a painful injury to the index finger of his left hand. The sharp edge of a wedge slipped and entered the finger at the joint, cutting to the bone.

J. Stitt Wilson delivered a strong address to a full house Wednesday night, on "The Bible Argument for Socialism." His ideas were excellent and had not our forms for this issue been filled we would gladly have given space for some of them.

Dr. Miner's many friends will regret to learn of his transfer to Oakland. He will leave in about ten days to take up practice in that place. The drugstore will continue under his management with Miss Clark in charge. A physician from Mendocino county is expected to take up the medical practice here.

Complaint is being made by residents near Moore's station of the raise in fare from there to San Jose. Since Sunday the charge has been advanced to 20 cents each way. Farmers in that neighborhood who have been depending on men from San Jose for help are now unable to secure them because they say they cannot afford 40 cents per day fare.

Injury to Bicyclist

Quite a serious accident occurred Sunday about noon between Sunnyvale and Mountain View when Lester Ghirken of Campbell, who was on a bicycle, was run over by Mr. Geo. Arnes who was in an auto. The injured man was brought to Sunnyvale in Mr. Arnes' machine where his injuries received medical attention. He was later taken to the O'Connor Sanitarium in San Jose, where he is getting along as well as could be expected.—Sunnyvale Standard.

A later report to the Press says his collar bone and shoulder blade were broken, besides being badly injured on the head.

actually glittering with free gold. When pieces of the rock were thrown up by the plow, many miners flocked to the scene and took samples. Street grading was resumed only with difficulty.

Sacramento.—That cotton can be successfully grown in the Sacramento Valley has been demonstrated by J. W. Sturtevant of Oak Park. He sent to Florida for cottonseeds and planted them last April. In due time a number of thriving cotton plants were growing. Although given practically no care several of the cotton plants are now three feet in height. Every morning they produce half a dozen or more blossoms.

San Jose.—Suddenly going insane, a Japanese in the employ of H. C. Morrel, a rancher at Wrights, ran amuck and, flourishing a revolver, drove the occupants of the house to the woods. He shot at a compatriot several times, but failed to hit him. He then barricaded himself in a cabin and shot at every one who came in sight. The Sheriff's office sent deputies and he was arrested after his ammunition had given out.

Oakland.—Attempting to conquer his opponent in a manner that was common in his boyhood, William Brackett, a police officer, stationed at the Southern Pacific yards, arrived at the Receiving Hospital and had a dislocated index finger on his left hand put back in place. In explaining the mishap, Brackett said: "I was trying to hold a hobo I had caught in the yards, and as he wouldn't stand still I pinched him on the arm. I guess I pinched too hard and threw my finger out of place.

Byron.—H. T. Hammond, publisher of the Byron Times, whose boosting methods have made the resources and productivity of this section talked of from one end of the country to the other, has given another demonstration of his enterprise and tireless energy. He has celebrated the third anniversary of the Times by installing a new printing plant and issuing the paper in colors. This feature is something new in country journalism, and will arouse such comment among publishers that homeseekers will focus their eyes on Byron.

weighed 153 pounds. During more than four hours that elapsed between the time of Omara's hooking the fish and bringing it to gaff the launch was towed more than twelve miles.

Will Fly at State Fair.

Sacramento.—Lyman Gilmore, the Colfax aviator, came to terms with the committee handling Sacramento really day at the State Fair and has agreed to make flights with his new model aeroplane every day of the coming fair. The flights will be made from a specially constructed platform at the race track.

Boy Mutilated by Railroad Torpedo.

Colton.—George Ashby, the 9 year old son of H. H. Ashby of the Edison company's sub station here, found a railroad torpedo in the yard, and, taking it to a nearby anvil, struck it with a chisel to see if it were a good one. One eye was torn out and his face badly cut. He also lost a finger of his right hand.

Heavy Seal Catch.

San Francisco.—The North American Commercial Company of this city, which has the Prebyloff islands sealing lease, notified the Department of Commerce and Labor that its catch this season amounted to 14,366 skins, within 634 of the full quota allowed under the contract with the Government.

Bad News Killed Him.

Santa Ana.—When Charles Forbes, an El Toro rancher, received a telegram that his brother, Augustus, residing at Riverside, was seriously ill, he was prostrated, and a short time later was found dead in the back yard of his home. A few hours afterward Augustus also was dead.

Admission Day in San Jose.

San Jose.—This city expects to entertain fully 30,000 visitors during the Admission Day celebration of September 8, 9, 10 and 11.

on Thursday took glorious revenge for the hard luck he experienced in his recent attempts to cross the English channel, and his indefatigable but hitherto unsuccessful efforts to accomplish some notable achievement during the week, by beating Paulham's performance of Wednesday and establishing a new world's airship record for distance, 154 kilometers, 650 meters, or 95.88 miles.

Latham covered fifteen laps, or 150 kilometers, in 2 hours, 13 minutes, 9 seconds, and the full distance in 2 hours, 18 minutes, 9 3-5 seconds, which also are world's records, the flight being at the rate of about 68½ kilometers an hour, as compared with 53½ made by Wright at Lemans, and

a prize of 10,000 francs, for the best time in five circles of the course, 50 kilometers. The time was 1 hour 1 minute 14 seconds.

Cortland F. Bishop, president of the Aero Club of America, says he intends to ask American cities to compete for the honor of holding the meeting where the international cup won by Curtiss will be defended. He has cabled to the Aero club offering a cash subscription for a gold medal to be presented to Curtiss by President Taft.

No one who witnessed the flights during the week now entertains the slightest doubt that aerial navigation with heavier than air machines has a glorious future.

Bottles Labeled "Wine" Must Contain Real Article

Washington.—Upholding its contention that the consumer is, under the food and drug act, entitled to know the character of the product he buys, the board of food and drug inspection of the Department of Agriculture issued a decision declaring that a beverage cannot be labeled wine unless it is made from "the normal alcoholic fermentation of juice of sound ripe grapes, without addition or abstraction, either prior or subsequent to fermentation."

The term "wine" can only be used for a beverage made from grapes. If the beverage is labeled "imitation," a fermented beverage prepared from grape "must" by the addition of sugar may be termed "sugar wine," according to the board's decision. The addition of water to the grape "must" will also require further characterization than the term "wine." The decision was reached by the board in connection with the labeling of Ohio and Missouri wines.

Big Vintage Festival Planned by Grape Growers of Napa

Napa.—A vintage festival will be held in Napa county from September 7 to 9, inclusive, the 9th being celebrated in California not only as Admission Day, but as the date of the first vintage festival along European lines of opening the vintage season. The center of attraction will be at

Aetna Springs on the last named date. The purpose is to make the celebration an annual affair, sanctioned by the governor, and to impress Californians and outsiders with the importance of California's viticultural industry. The recently organized grape growers of California will materially aid in making the affair a success.

a ten-stamp mill on the property and it will now be kept running day and night.

School for Forest Rangers.

San Francisco.—A school for forest rangers will commence its sessions at Hot Springs September 20, and continue for a period of one month. This field school will be maintained by the government for the purpose of teaching representatives from each national forest in the State every phase of the work which the rangers might be called upon to perform.

Drunken Man Killed by Freight Train.

Seattle.—John Falvey, 22 years old, a papermaker from Holyoke, Mass., was killed and horribly mangled by a freight train a few days ago. Falvey and Owen Joyce, also a Holyoke papermaker, who had been drinking, crawled under a freight car to sleep. When the car was moved the wheels caught Falvey, but Joyce escaped.

For Humanity's Benefit.

Chicago.—Chicago is to have an institution for medical research similar to that founded within recent years in New York by John D. Rockefeller. The new institution is the gift of Mrs. Nelson Morris, widow of the packer, and \$250,000 needed for the hospital has been given by her as a memorial to her husband.

Rear-Admiral Swinburne Retired.

Washington.—Holding a longer record for sea service than any of his contemporaries, Rear-Admiral William T. Swinburne was transferred to the retired list last week, when he reached the age of 62 years. Twenty-six years of his forty-three years of service were at sea.

Death of Humane Society Official.

Toledo.—James M. Brown, for many years president of the American Humane Association, died suddenly this afternoon.

tenor this winter. Richard W. dish-washer in a hotel when guests heard him singing.

Lawrence, Kas.—J. O. Milliken, cipinarian of Haskett Institute declared to the Associated Press the story of alleged traffic in girls attending this school is altogether untrue. He stated further there was no thought of asking Federal authorities to make an investigation, as there was nothing to investigate.

Monroe, La.—Angered, it is believed because two of his friends had recently been shot by the police, William S. Wade, a negro, ran amuck the principal business street. He first at every object before him. A fire was returned and the negro dead with a bullet through his head but not before 29 men, three of them negroes, had been wounded.

Washington.—That the treasury department has adopted a general system of closer espionage on the off and men of vessels entering American ports in order to prevent smuggling is made evident by statement that no leniency would be shown to any offender against customs laws, whatever his position in the maritime service.

New York.—Charles Alfred B. journalist and playwright, died last week. He figured prominently in the Garfield campaign of 1880 as publisher of the newspaper in which he reared the forged Morey letter, plotting to give General James A. field's endorsement to Chinese. The Morey letter was the most sensational incident in an exciting political campaign.

Panama.—General Herbert O. fies, who figured prominently in the Panama revolution, killed William Nichols Chandler, editor of the Panama Press, by beating him on the head with the butt of a revolver and then killing him savagely in the abdomen. The cause of the fracas that resulted in Chandler's death was an article proposed to reflect on Mrs. Claude E. Chandler, his wife, who is the daughter of the consul general here, and sister-in-law of Jeffries.
